

Textile labels, printed

Printed bar code labels made of Nylon fabric are made for identifications on cotton and polyester/cotton blends. The thermal-transfer print withstands many wash cycles.

The coated Nylon fabric is easy to integrate into garments and other textile items.

Application	Permanent identification of garments, linen and many other fabric items.
Material	Nylon fabric, thermally activated, white Image: Thermal-transfer print, black Colors: black on white Surface: matte
Size	Standard size: 50 x 25 mm. Other dimensions on request.
Bar code	2/5 interleaved, Code 128, Code 39, Datamatrix ECC-200
Fastening	Sewing on with tear-proof thread or patching with heat seal adhesive (option)
Temperature resistance	- 40°C ... +90°C (cleaning processes)
Chemical durability	Resistant to soft cleaning agents
Mechanical durability	Centrifugation, pressing or mangling

We recommend to test the labels in the real environment prior to an order.
